Ladder and Stepladder Combi - User and Inspection

Course Aim

To provide delegates with the knowledge to select appropriate work at height equipment for a task, correctly locate and safely use ladders and stepladders, and inspect ladders and stepladders for damage.

Delegates will also be provided with an understanding of current relevant legislation in order to be able to thoroughly inspect ladders and stepladders, identifying safety critical faults and to record equipment details and inspections as outlined in PUWER.

Who Should Attend?

Operatives and supervisors who require the knowledge and practical skills to work safely with and inspect steps and ladders.

Course Duration

This is a 1 day course.

Maximum Delegates

Maximum attendees: 8 delegates.

Certification

Successful completion of this course will result in the issuing of a Ladder Association Ladder User's ID card and Certificate of Training.
