

ISO 45001:2018

Internal Auditor (2337) CQI and IRCA

Course Aim

The aim of this course is to provide the knowledge and understanding of the techniques required to effectively audit occupational health and safety management systems (OHSMS). The focus of this course is on the importance of the ISO 45001:2018 management system and helps delegates to understand the role of the auditor in the development and improvement of this system.

If you are booking with less than 3 working day's notice from the course start date please ring 0345 605 0006 to confirm this course.

Course Duration

This is a 2 day course.

Certification

After completing this course, you will receive a CQI and IRCA Certified training accredited certificate (2337)

Agenda

- OHS Management System
- Audit Fundamentals
- Internal Audit Planning
- Conducting the Audit
- Reporting Audit Outcomes
- Audit Follow Up

Who Should Attend?

This course is aimed at delegates who will undertake internal health and safety management system audits or who will be required to plan, manage and implement an internal audit programme.

Delegates are expected to have the following prior knowledge:

- Knowledge of OHS management systems elements and their relationship to the Plan-Do-Check-Act cycle
- Knowledge of OHS management systems, consisting of Fundamental concepts and related principles
- Terms, definitions and awareness of the ISO 45001 management system requirements
- Basic knowledge and awareness of the OHS legislation relevant within their jurisdiction

We can provide the ISO 45001 Foundation course which covers the above criteria.
