

Water Jetting Safety Awareness (SA) – City & Guilds

Course Aim

To provide delegates with the necessary skills and working knowledge of high-pressure water jetting, covering a range of safety features that include risk assessment and use of PPE, pre-work checks, and the identification of hazards.

The course will follow the guidance given in the Water Jetting Association Code of Practice and assist in compliance with the Health & Safety at Work Act 1974 (HASWA 74).

Who Should Attend?

Anyone who is required to operate high-pressure water jetting equipment in their line of work.

To be eligible to attend this course, you must have certificated high-pressure jetting equipment that is fit for purpose. High-visibility waistcoat, overalls, gloves, hard hat, safety footwear, waterproofs, hearing, and eye protection are also required for this training course.

Certification

On successful completion of this course, a City and Guilds accredited Certificate of Training and a Photo ID Card will be issued by the Water Jetting Association. It is recommended that the Water Jetting Safety Awareness course be retaken every 3 years.

All certification is subject to the City & Guilds quality assurance procedure.

Course Duration

This is a 1-day course

Agenda

This one-day course will aim to teach delegates the following:

- Registration and Introduction
- Application and Machines
- Legislation and the WJA Codes of Practice
- Jetting Equipment:
- Nozzles
- Pumps
- Pressure Controls
- High Pressure Hose
- Water Jetting Hazards
- Water Jetting Injuries
- Personal Protective Equipment
- Operational Procedures

By the end of the course, the delegates will be able to:

- Describe and undertake their maintenance responsibilities
- Determine the steps necessary to ensure safety of operation
- Identify potential diseases and accident risks
- Select the appropriate Personal Protective Equipment
- Explain the methods of protecting equipment from frost

Maximum Delegates

Maximum attendees: 12 delegates.
