

The Servicing and Maintenance of Portable Fire Extinguishers Refresher

Course Aim

This 1-day course provides delegates with a refresher of the knowledge and practical skills required to service and maintain portable fire extinguishers. This course also provides an update on changes in legislation or Standards, knowledge and understanding of developments in extinguisher technology and changes in working practices.

Who Should Attend?

This course is suitable for delegates who have previously attended and passed the servicing and maintenance of portable fire extinguishers course.

Course Duration

This is a 1 day course.

Maximum Delegates

Maximum attendees: 14 delegates.

Agenda

This course is a one day refresher course for delegates who have previously attended and passed the portable servicing and maintenance of portable fire extinguishers course.

A refresher course is needed every three years to help maintain current knowledge and certification.

This course helps you understand

- The latest changes in legislation
- The changes in working practices
- The developments within extinguisher technology

Certification

Delegates with a 75% or above pass rate for both theory and practical exams will be issued with a BAFE certificate.

Certification also acts as a proof of competence for third party schemes whilst maintaining the delegate's previous servicing and maintenance of portable fire extinguishers qualification.
