

Environmental Sustainability Skills for the Workforce ISEP

Course Aim

The aim of this course is to provide the knowledge and understanding of the main environmental risks and opportunities facing organisations; the importance of resource efficiency; the impacts of pollution, prevention, control and legislation; the impact of transport; and knowing how employees can support environmental sustainability. This course aims to provide an elemental understanding of environmental sustainability principles and helps the workforce embed environmental cultural changes in their organisation.

Agenda

- Develop an understanding of the main environmental and economic risks and opportunities
- Develop an understanding of compliance obligations and business drivers for change
- Develop an understanding of the main potential impacts on environment and sustainability
- Develop an understanding of how to improve environmental performance

Who Should Attend?

This course is aimed at delegates who are working in any job role across all sectors and has no formal entry requirements. It is benchmarked against the Level 2 RQF descriptors. This is an ideal course for those developing into the role of, or existing as, designated environmental champions in the workforce.

Course Duration

This is a 1-day course.

Certification

Delegates successfully completing the course will receive an ISEP Sustainable Skills for the Workforce certificate.
