

HSG47 - Unit 1 Management, Planning & Surveying, Issuing of Permit - City & Guilds

Course Aim

This course outlines the dangers which can arise from work in proximity to underground services and the requirements for planning and implementing safe systems of work in order to reduce the risk.

The course is in accordance with HSE HSG47 guidance Avoiding Danger from Underground Services.

Who Should Attend?

This course is aimed at contractors, designers, planning supervisors and others concerned with planning, organising, supervising and conducting work near underground services - including utilities, roadworks, construction and demolition work.

Course Duration

This is a 1 day course.

Certification

Delegates successfully completing the course, including the written and practical assessments are awarded a City & Guilds approved certificate.

All certification is subject to the City & Guilds Quality assurance procedure. If you require a certificate of attendance in the interim please don't hesitate to contact us.
