

# Fire Awareness (Construction) - E-Learning

## Course Aim

Fire Awareness training is a legal requirement for all employees in the UK. This is covered in the CDM regulations and the Health and Safety at Work Act 1974. By enrolling all staff enrol on this course you can show due diligence with current legislation.

Designed specifically for the construction sector, our training course includes information that is specific to construction sites.

### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*

## Agenda

The course modules cover:

- The Nature of Fire
- Fire Signage
- Fire Hazards
- Discovering a fire
- Fire Extinguishers

## Certification

Delegates will receive a HSS printable certificate in Fire Awareness (Construction) upon completion of the course.

This course is approved and accredited by CPD.

## Who Should Attend?

This course is designed specifically for delegates working in the construction sector to educate them on how to prevent fires, how to properly use a fire extinguisher, how to recognise fire signs and proper emergency procedure to ensure a safe evacuation of the working premises.

## Course Duration

This is a 55 minute course.
