

# Infection Prevention & Control in Care - (Standard 15 Care Certificate) - E-Learning

## Course Aim

This e-learning course teaches delegates about what infections are, where they come from and how to prevent them. Additionally, it gives them a better understanding about personal hygiene and the correct hygiene practises to reduce infection in a work setting.

### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*

## Agenda

The course modules cover:

- Infections
- The Chain of Infection
- Hygiene

## Certification

Delegates will receive a HSS printable certificate in Infection Prevention & Control in Care upon completion of the course.

This course is approved and accredited by Skills for Care.

## Who Should Attend?

Infection prevention is an incredibly important topic for all employees to understand. It is essential that every member of staff understands the risks, how to stay safe, and how to keep themselves and everyone around them free of infection.

## Course Duration

This is a 40 minute course.
