

# CITB - Site Environmental Awareness Training Scheme (SEATS)

## Course Aim

This CITB course will provide delegates with who have management or supervisory responsibilities on a construction site with basic environmental knowledge.

All delegates will receive a complimentary copy of the CITB Construction Skills publication GE700 – [Construction Site Safety]. This publication covers all that a construction site manager needs to know on current health, safety and environment issues.

## Who Should Attend?

Delegates with management or supervisory responsibilities on a construction site. This could include site supervisors, managers, assistant managers, agents, and foremen.

### Note:

You must have a good understanding of spoken and written English. Please contact us if you have any concerns in this area 0345 605 0006.

## Certification

Developed by leading construction and engineering solution providers; with support from CITB Construction Skills, the new course is fully endorsed by the UK Contractors Group (UKCG) and the Environment Agency (EA) and is accredited by Site Safety Plus.

On successful completion of a Site Environmental Awareness Training Scheme (SEATS) course, delegates are issued with a CITB Site Safety Plus certificate valid for five years.

## Agenda

- Environmental impacts and the issues associated with construction activities
- Why sustainability issues are important
- An introduction to Environmental Management Systems
- Waste management
- Pollution prevention, contaminated land and water management
- How to be a good neighbour
- Being a responsible contractor

This is a highly interactive course delivered by means of case studies, classroom discussion and group work. You will be continuously assessed and required to successfully complete a multiple-choice test.

## Course Duration

This is a 1 day course.
