

**Fire door
keep shut**

Fire Door Inspection - City & Guilds

Course Aim

To provide delegates with the important information and actions required to not only meet competence standards, but to also provide confidence when conducting fire door inspections.

The training course covers fire door regulations, fire door testing requirements and evidence of fire door performance.

The course addresses the importance of different types of fire doors and their installation, and an appreciation of the importance of components including door closers, hinges and door hardware. The course features practical examples of fire door inspections to help reinforce the key learning points.

Agenda

- Fire door regulations
 - » Thoroughly understand the regulations and standards applying to fire doors
- Fire door inspection requirements
 - » Demonstrate your knowledge of the different types of fire doors
 - » Appreciate the importance of critical components such as door closers and hinges
 - » Clearly understand the inspection procedure and pass / fail criteria
- Reporting and feedback
 - » Understand the advice to give the building owners / clients in case of inspection failure

Who Should Attend?

Any persons inspecting fire doors that need to have a full and comprehensive understanding of their role, and a good appreciation of the current standards to achieve competence.

Course Duration

This is a 1-day course.

Certification

Upon successful completion delegates will be awarded a City & Guilds Accredited certificate valid for 3 years.
