

Environmental Sustainability Skills for the Workforce (ISEP) E-Learning

Course Aim

The aim of this course is to provide the knowledge and understanding about the key information needed on how employees can support sustainable and environmentally friendly practices in their organisation. It enables delegates to consider environmentally sustainable practices whilst undertaking their job roles.

This course teaches delegates the key elements such as environmental risks, legislation and pollution so that employees have the tools and understanding to support sustainable practices.

The benefits for taking part in this course is to upskill your employees to improve the sustainability of practices and develop awareness of the environment across your business and to enhance your business brand through a commitment to sustainable practices.

Agenda

- Upskill your employees to improve the sustainability of practices and develop awareness of the environment across your business.
- The course can be tailored to suit the needs of your business and employees.
- Enhance your business brand through a commitment to sustainable practices.

Benefits for Learners:

- Advance your career with a foundational knowledge of environmental sustainability.
- Improve the sustainability of your organisation's practices.
- Progress your career with an official certificate that demonstrates you have the basic knowledge of the agenda and working practices in environmental sustainability.

After gaining this qualification, delegates will have a firm understanding of all the following areas of knowledge:

- Identifying the main environmental and economic risks and opportunities.
- Compliance obligations and business drivers for change.
- The main potential impacts on the environment and sustainability.
- How to improve environmental performance.

Who Should Attend?

This course is aimed at delegates from all backgrounds and professions and has no formal entry requirements.

Course Duration

This is a 20 hour course.

Certification

Delegates successfully completing the course will receive an ISEP accredited certificate.
