

# CPCS - A21 Wheeled Loading Shovel - Novice

## Course Aim

To provide delegates with the knowledge and practical skills to safely operate a Wheeled Loading Shovel, delivered through a combination of classroom-based tutorials and practical training and exercises. If you are booking with less than 5 working days notice from the course start date please ring 0345 605 0006 to confirm this course.

## Who Should Attend?

Potential and existing operators who have received no formal instruction and those requiring refresher training.

### Pre-requisites

You must have a basic understanding and knowledge of current Health & Safety issues. The relevant CITB Health Safety & Environment touchscreen test must be current and in date (completed within the last 24 months).

Failure to arrive on the course with the relevant test completed and in date, will result in your not being permitted to undertake the exams at the end of the course. No refund will be given for exams cancelled as a result of you not having the relevant test completed.

More information can be found on the CITB website. Your booking can only be confirmed once we receive the following information:

- Existing CSCS Card Number
- NI Number
- D.O.B.

We'll be in contact within 48 hours after you make your booking to collect further information prior to confirming your space on the course.

## Agenda

- Undertake all pre-start, running checks and shut down procedures, mount and dismount
- Explain precautions to be taken for underground and overhead services and other hazards
- Prepare and configure the wheeled loading shovel for site and road travel
- Place the machine in an out of service condition
- Carry out excavations from an embankment of different materials and form stockpiles and ramps
- Ensure load integrity and security
- Explain loading/unloading procedures for machine transportation
- Theory Test
- Practical Test

## Course Duration

This is a 3-5 day course dependant on location.

# CPCS - A21 Wheeled Loading Shovel - Novice

## Certification

This course will give delegates a CPCS Red Trained Operator card (on successful completion of CPCS technical tests).

### Trained Operator Card (RED)

The Trained Operator Card confirms a level of core skills, knowledge, and understanding that can be applied in the workplace until measured as competent against national standards. Experienced and capable operators may hold a Trained Operator Card while working towards an SVQ or NVQ.

If you hold or have held a previous CPCS card and wish to progress, please let us know before booking.

Once you've obtained your Red CPCS Trained Operator Card, it is valid for 2 years. During this time, you are expected to complete an NVQ in Plant Operations to progress to a Blue CPCS Competence Card.

If you have not completed your NVQ within the 2-year period, the accreditation body, NOCN-CPCS, may allow a grace period provided you are registered and booked onto an NVQ course. For further guidance on eligibility and next steps, please contact our team.

### Competent Operator Card (BLUE)

The Competent Operator Card confirms that the holder has demonstrated health and safety awareness (via the CITB Health, Safety, and Environment test), underpinning knowledge (via a CPCS theory test), operating ability (via a CPCS practical test), and operating competence on the type of plant (evidenced by an SVQ, NVQ, or employer confirmation of competence).
