

Site Management Safety Training Scheme (SMSTS) Day Release (Remote Learning)

Course Aim

This course will provide delegates in a Project / Site Management role with essential knowledge and understanding on responsibilities and accountability for site safety.

This remote learning and examination option for the Site Management Safety Training Scheme (SMSTS) Day Release course has been created to allow delegates to gain and develop the required knowledge outside of the classroom.

Microsoft Teams MUST be installed beforehand to ensure you can participate successfully.

Who Should Attend?

Project managers, site managers and supervisors as well as proprietors of small to medium sized companies.

Possession of this qualification is listed in the Approved Code of Practice for the Construction (Design and Management) (CDM) Regulations as a demonstration of competence in the role of site manager.

Please Note: The minimum age of attendance for this course is 16 years old, however delegates who are **under the age of 18** must bring a completed parental consent form to the first day of the training course.

Virtual Classroom

This course will be delivered via video conferencing using Microsoft Teams Virtual Classroom. This allows two-way communication, ensuring the course is interactive with delegates having the opportunity to ask questions. Each delegate in attendance must have a webcam and microphone, to provide evidence of identity and the ability to answer all examination questions.

Agenda

The training and examination for this course will be delivered remotely via Microsoft Teams, but will follow the same curriculum as the classroom SMSTS Day Release course and the same standard of training will be delivered, meeting all Scheme Rules.
