

# Fire Extinguisher Use - E-Learning

## Course Aim

Fire Extinguishers should only be used when it's safe to tackle a fire, the rule to follow is one fire one extinguisher - if it looks like it'll take more than one extinguisher to put out the fire, it's too big to tackle and the workplace should be evacuated.

This course aims to educate delegates on the different classes of fires, the type of extinguisher you should use for each fire and the technique to use for all of them, including fire blankets.

### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*
