

NEBOSH Fire Safety Certificate

Course Aim

The aim of this course is to provide the knowledge and skills needed to protect people and the workplace from fire hazards. This course aims enable delegates to identify and minimise fire risks and to ensure that preventative measures are taken within the workplace.

Who Should Attend?

This course is aimed at managers and supervisors who have responsibility to ensure that fire safety legislation is met. The course is ideal for those delegates who have fire safety responsibilities within the workplace.

Course Duration

This is a 6 day course.

Certification

Delegates successfully completing the course will receive a NEBOSH Fire Safety Certificate.

Further Study

- » Fire Damper Testing - City & Guilds
- » Fire Door Inspection - City & Guilds
- » Fire Safety Awareness - City & Guilds
- » Fire Awareness - E-Learning
- » Fire Marshal & Warden - E-Learning

Agenda

- Understand the management of health and safety
- Manage fire safety protocols in their workplace
- Understand the principles of fires and explosions
- Identify the causes and preventions of fires and explosions
- Identify and implement fire prevention and protection in buildings
- Manage the safety of people in the event of a fire
- Conduct a fire safety risk assessment
- Promote a fire safety culture

The NEBOSH Fire Safety Certificate course consists of two assessments:

An open book examination - Delegates will have 24 hours to complete this written examination from home.

A practical fire risk assessment - Delegates are required to complete a practical fire risk assessment at their workplace, using frameworks and standards, such as the Home Office fire guidance and PAS79-1:2020. There is no time restriction for the risk assessment, but three hours is recommended to compile a comprehensive risk assessment.

NEBOSH external examiners will evaluate both parts of the assessment.
