

IOSH Managing Occupational Health & Wellbeing Remote Learning

Course Aim

To provide delegates with the tools and techniques needed to improve health and wellbeing across their organisation, helping them to become line managers who truly care about the health and wellbeing of an organisation's most important asset – its people.

This remote learning and examination course has been created to allow delegates to gain and develop the required knowledge outside of the classroom.

Who Should Attend?

Managers and supervisors working in any sector, and for any organisation.

This course will be delivered via video conferencing using Microsoft Teams Virtual Classroom. This allows two-way communication, ensuring the course is interactive with delegates having the opportunity to ask questions.

Certification

Delegates successfully completing this course will receive an IOSH Managing Occupational Health and Wellbeing certificate.

The trainer will conduct an online exam with all delegates via video communication on Microsoft Teams. The trainer will read out the questions and answers, and accurately record the delegates chosen answer. The delegate must be visible via the video at all times.
