

CCNSG Safety Passport ECITB

Course Aim

To provide delegates with the basic knowledge of health and safety for all site personnel required to work on site safely with a lower risk to themselves and others.

Certification

Delegates successfully completing the multiple choice assessments will receive the CCNSG Safety Passport Card valid for 3 years.

Who Should Attend?

Delegates working in an industrial environment - from labourers to project managers.

FAQ - I've already attended and successfully passed the SSSTS course, why do I need a Safety passport?

The CITB courses are designed for the construction industry and the CCNSG Safety Passport is specifically designed for the engineering construction industry. The clients on each site specify what the requirements are to work on their sites.

Course Duration

This is a 2 day course.

CCNSG Safety Passport ECITB
