

Low Voltage: Authorised Person

Course Aim

To provide delegates with the knowledge required to carry out Authorised Person duties and responsibilities in order to achieve compliance with Safety Rules and Procedures designed to meet the requirements of the Electricity at Work Regulations 1989.

The Authorised Person Electrical Low Voltage course is based on the content of HSG 85 Electricity at Work Safe Working Practices. Documentation exercises can be industry specific in order to meet delegates' needs and JSP 375 Volume 3 Chapter 3 is offered along with company specific Safety Rules and Procedures if required.

Who Should Attend?

This course is for experienced engineering staff with responsibility for the control, operation or maintenance of installed Low Voltage systems and who may be appointed as Authorised Person (Electrical Low Voltage).

Note:

You must have a good understanding of spoken and written English. Please contact us if you have any concerns in this area 0345 605 0006.
