

## General Workshop Safety - E-Learning

### Course Aim

This training provides information about general safety awareness and is essential for delegates to know the best practises in remaining safe when working in a workshop. In 2020, over 38 million working days were lost due to work related ill-health.

This course aims to help delegates reduce the risk of injury by learning about their responsibilities, possible hazards, the common accidents, the safety signs and the Do's and Don't's of workplace safety.

#### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

*\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.*

### Who Should Attend?

This online training course is suitable for any delegate who works in a workshop.
