

IOSH - Leading Safely

Course Aim

To provide those in senior management roles with an awareness of their health and safety responsibilities with regards to the day-to-day running of the business.

Who Should Attend?

Anyone in a leadership or Senior Management role.

Course Duration

This is a 1 day course.

Certification

Delegates successfully completing the course will receive an IOSH Leading Safely certificate.

The Institution of Occupational Health & Safety (IOSH) is the world's largest professional health and safety membership scheme. In addition, it aims to regulate the profession of health and safety providers by setting standards, as well as connecting members to resources and providing support, guidance and training.

Agenda

This course covers the following:

- Awareness of health and safety legislation
- The moral, legal and business need for proactive health and safety management
- How to implement health and safety policies and integrate them into a business
- The value of health and safety management and training at all levels and when to look for advice
- The consequences of not managing health and safety effectively and how to ensure internal processes are working
- The importance of continual improvement
