

Warning Confined space

C&G 6160-01 Level 2 Award - Working in Low Risk Confined Spaces

Course Aim

This course reflects the national occupational standard for a low risk confined space environment where access is simple and unobstructed. It covers both water and non-water industry areas.

Water

This may include working with potable water, sewage treatment processes, drain and sewer cleaning operations or where the operative is working in or near water or where a confined space is subject to surface water flooding.

Non-water

This may include pharmaceutical, petrochemical, asbestos removal, vehicle manufacture and servicing, aeronautical, construction, communications, power, utilities, gas, electrical and mechanical engineering and some elements of work operations in mines, quarries and tunnelling.

Note:

Please be aware that the safe working load (SWL) of person & equipment combined during the practical session of this course is 136KG.

The following SWL is applicable minus the equipment:

- 6160-01 Low Risk: 135KG.

Course Duration

This is a 1 day course

Who Should Attend?

This course is aimed at anyone working in a low risk environment and includes preparing to work safely, entering and exiting low risk confined spaces safely, safe use of equipment and tools, following procedures and dealing with emergencies.

What to expect from this course:

This qualification allows you to work inside a low risk confined space, however it does not qualify you to be an Entry Controller for low risk work. If you wish to be an entry controller for low risk, you will need to book onto the following course:

[6160-09 Level 2 Award in Entrant and Entry Controller for confined spaces - \(Medium Risk\) training course.](#)

Certification

Delegates successfully completing the course will receive a digital certificate of attendance valid for 3 years. Paper certificate and photo ID card can be requested at an additional charge.

Warning Confined space

C&G 6160-01 Level 2 Award - Working in Low Risk Confined Spaces

Agenda

Confined Spaces Regulations 1997 & Approved Code of Practice

- Identification of a confined space
- Confined space classifications:
 - Water industry national classifications
 - National occupational standard
- Risk assessment & workplace safety
- Operation of a safe system of work
- Following a method statement
- Use of permit to work control measures
- Emergency planning
- Personal Protective Equipment
- Gas detection and ventilation
- Hygiene and first aid

Assessment:

- Practical observation - top entry no deeper than 3 metres
- Undertaking risk assessments throughout the exercise to identify hazards
- Responding to risks and hazards
- Dealing promptly with emergencies
- 90 minute full written assessment
