

# Reinforced Autoclaved Aerated Concrete (RAAC) Awareness

## Course Aim

This course will provide delegates with the ability to identify Reinforced Autoclaved Aerated Concrete (RAAC), understand the associated risks, know when action should be taken and have an understanding of control measures available.

## Who Should Attend?

Any person working in facilities management will benefit from this awareness course, with delegates working in the following roles identified as being the main beneficiaries:

- Building surveyors
- Facilities managers
- Housing associations
- Maintenance teams

## Course Duration

This is a half-day course.

## Maximum Delegates

Maximum attendees: 12 delegates.

## Certification

This is an awareness course with a certificate of attendance awarded. It is recommended that this course is refreshed every three years with a view to maintaining levels of understanding of any changes to legislation.

## Agenda

- Identifying RAAC
- Associated risks with RAAC
- Identification of RAAC
- Suggested preliminary inspection procedure
- Warning signs
- Action plans and what can be done
