

CISRS Advanced Scaffold Inspection

Course Aim

To provide delegates with comprehensive and in-depth knowledge that will enable them to understand how to inspect complex scaffolding structures in accordance with the Work at Height Regulations. This is in addition to the skills needed to complete full scaffold inspection reports.

Who Should Attend?

This advanced CISRS scaffolder training course is designed for experienced scaffolders and scaffold inspectors who are responsible for inspecting scaffolds and completing reports in accordance with the Work at Height Regulations 2005. It's also suitable for other professionals at a similar level who wish to expand their knowledge of scaffolding.

Prerequisites

Delegates are required to hold a CISRS Basic Scaffold Inspection certificate or have been a qualified CISRS Scaffolder or Advanced Scaffolder for a minimum of 2 years to take this scaffold inspection course.

Certification

Successful delegates will receive a CISRS Completion Certificate, and we will apply for the CISRS Advanced Scaffold Inspection card for you.

Course Duration

This is a 2-day course.
