

IOSH - Managing Safely (Remote Learning)

Course Aim

This IOSH accredited course will provide delegates in a managerial position with knowledge on the practical actions they need to take to handle health and safety in their teams.

This remote learning and examination option for the IOSH Managing Safely course has been created to allow delegates to gain and develop the required knowledge outside of the classroom.

Who Should Attend?

Delegates in a role with supervisory or managerial responsibility in any sector, and any organisation.

This course will be delivered via video conferencing using Microsoft Teams Virtual Classroom. This allows two-way communication, ensuring the course is interactive with delegates having the opportunity to ask questions. Each delegate in attendance must have a webcam and microphone, to provide evidence of identity and the ability to answer all examination questions.

Certification

Delegates successfully completing the course will receive an IOSH Managing Safely certificate.

The trainer will conduct an online exam with all delegates via video communication on Microsoft Teams and the delegate must be visible via the video at all times.

Agenda

The training and examination for this course will be delivered remotely via Microsoft Teams, but will follow the same curriculum as the classroom IOSH Managing Safely course and the same standard of training will be delivered, meeting all Scheme Rules.

- Law and Regulations
 - » An overview of the key pieces of legislation and regulations that apply to the workplace
- Risk Management
 - » Understanding, assessing and controlling risk to 'reasonably practicable' levels
- Accidents at Work
 - » Investigating accidents in the workplace to establish immediate and root causes
