

UKATA Asbestos Awareness Refresher

Course Aim

The UKATA Asbestos awareness refresher course ensures that delegates renew their knowledge and understanding of the hazards and risks posed by asbestos and how to avoid exposure. It outlines how to identify those materials that may contain asbestos and where they might be found. This course informs the delegate how to reduce the associated risks from asbestos in order to work more safely on site.

Please note: This is an awareness course ONLY and does not train delegates to work with any forms of asbestos.

This course is also available as a full course, please click here for more information - [Asbestos Training - Awareness Course \(UKATA\)](#)

This UKATA course that we are offering for sale, is sold under license from Environmental Essentials Ltd, who are the UKATA approved Professional Members, UK1136A and HSS are not a UKATA Professional Member for this classification of training, Asbestos Awareness, Duty to Manage, Non Licensed Work.

Course Duration

This is a half-day course.

Maximum Delegates

Maximum attendees: 15 delegates.

Certification

Delegates successfully completing the course will receive a UKATA Accredited Certificate valid for 1 year.

Agenda

This course covers the following topics:

- Introduction & Overview
- Types of Asbestos and their properties
- The effects of Asbestos on workers' health
- The uses of ACMs in buildings and how to recognise them
- Asbestos Regulations
- Asbestos Legislations
- The employers and employees' responsibilities
- Emergency Procedures

Who Should Attend?

Asbestos awareness Refresher training is aimed at delegates who may work on the fabric of any premises built/refurbished before the year 2000, and those who influence such works. If you are a supervisor/manager of a team who work on these buildings, asbestos awareness training is necessary.

Please note: Delegates attending this course MUST have successfully completed the UKATA –Asbestos Awareness course within the last 12 months.

The course is recognised by the UK Asbestos Training Association (UKATA) and meets the requirements of the Control of Asbestos Regulations 2012 (CAR).
