

Stumpgrinders - LANTRA

Course Aim

This course will provide delegates with the knowledge and understanding needed to operate and maintain Stumpgrinders. This is a one-day course that includes both practical skills and health & safety guidance; a vital element when operating this powerful machinery.

This is a hands-on course that includes both health and safety and practical elements which supply sufficient training to meet the Provision and Use of Work Equipment Regulations.

Who Should Attend?

This course is suitable for anybody working or looking for work in arboriculture, forestry, horticulture, landscaping, or grounds maintenance industries.

Due to the nature of the training a minimum level of fitness will be required for specific operations. Whilst we would not want to disadvantage you as a learner, it is an essential requirement. However, it should be noted that this course requires no previous experience operating Stumpgrinders.

Course Duration

This is a 1 day course.

Maximum Delegates

Maximum attendees: 4 delegates.

Agenda

This course is run across one day and consists of both theory and practical elements:

- Risk assessment and emergency procedures.
- Health and safety guidelines and legislation.
- Personal protective equipment.
- Pre-use checks and machine safety features.
- Routine checks and maintenance.
- Cutter maintenance.
- Start the machine and carry out safety checks.
- Preparation of site, machine, and materials.
- Operation of stump grinder.
- Unblocking stump grinder.
- Re-instatement of excavation and disposal of arisings.
- Clearing, transport, and storage Carry out basic operations using tractor mounted loader.

Certification

Upon completion of this course, delegates will receive a LANTRA accredited certificate that does not expire. However, it is advised and is business best practice that delegates attend a refresher course every 5 years.
